Professional Summary

Front-end Developer with more than 1 year of experience specializing in creating responsive web applications using a tech stack that includes React, HTML, CSS, and JavaScript. Proficient in state management using react hooks such as usestate, Redux, and skilled in interfacing with Firebase, MySQL, and PostgreSQL databases for data management. Proven ability to optimize web performance and ensure cross-browser compatibility. Collaborative team player with a strong problem-solving mindset and a commitment to staying updated with the latest web development trends.

Skills

TECHNICAL SKILLS

- HTML
- Bootstrap
- Java
- JavaScript
- Git
- Figma

TECHNICAL SKILLS

- CSS
- React.JS
- Node.JS/ Express.JS
- MySQL/ PostgreSQL/ Firebase/ MongoDB
- JIRA

SOFT SKILLS

- Communication Skills
- Time Management Skills
- Problem-solving Skills
- Work in a Team
- Work Independently

Experience

Front End Developer - Extratech

June 2022 – Current

- Design, develop, and maintain responsive web applications using HTML, CSS, and JavaScript
- Apply Bootstrap to design consistent and visually appealing layouts
- Proficient in utilizing React to create captivating and responsive user interfaces, enhancing user experiences with interactive and dynamic elements
- Proficiently Interface with Firebase, and PostgreSQL databases to seamlessly store and retrieve data, ensuring efficient data management and real-time updates for responsive web applications
- Implement state management in React applications using tools like usestate, Redux, or Context API
- Optimize web applications for performance by minimizing load times and reducing unnecessary rendering
- Develop comprehensive unit tests using the Jest framework and perform integration testing to ensure code quality and robust functionality
- Maintain clear and concise documentation for code, APIs, and project architecture to facilitate seamless collaboration and knowledge transfer within cross-functional teams.

- Collaborate closely with back-end developers, designers, and other team members to ensure seamless integration of front-end and back-end components
- Stay updated with the latest web development trends, tools, and technologies

Crew Trainer - McDonald

July 2017 – June 2022

- Collaborated with internal teams to evaluate training programs, identify gaps, and drive improvements
- Successfully resolved escalated customer inquiries and complaints, demonstrating strong problem-solving abilities and preserving customer loyalty
- Maintained clear and effective communication with customers, colleagues, and other departments to relay relevant information or coordinate solutions

Projects

Website of Extratech: - extratechs.com.au

- Collaborated with internal teams to evaluate training programs, identify gaps, and drive improvements
- Successfully resolved escalated customer inquiries and complaints, demonstrating strong problem-solving abilities and preserving customer loyalty
- Collaborated with a team of designers and developers to completely redesign the website, enhancing user experience and modernizing the visual appeal
- Implemented responsive web design techniques using HTML5, CSS3, JavaScript, and React to ensure optimal functionality across various devices and screen sizes
- Optimized website performance by conducting regular code reviews, identifying and resolving bugs, and implementing best practices for faster loading times
- Actively participated in team meetings to discuss project updates, brainstorm solutions, and provide insights that contributed to the project's successful completion
- Successfully launched the revamped website, resulting in a 20% increase in user engagement

Website of Extratech Education and Visa Services: - eteducation.com.au

- Collaborated with internal teams to evaluate training programs, identify gaps, and drive improvements
- Successfully resolved escalated customer inquiries and complaints, demonstrating strong problem-solving abilities and preserving customer loyalty
- Utilized HTML5, CSS3, and JavaScript to create a visually appealing and interactive user interface
- Implemented React.js to build dynamic components, improving website interactivity and user experience
- Utilized RESTful APIs to fetch and display real-time data, enhancing the website's functionality
- Designed and implemented a PostgreSQL database to store and manage website content, ensuring efficient data retrieval and storage
- Actively participated in code reviews and contributed to continuous improvement of code quality and best practices
- Collaborated with the team to make a website user-friendly

Education

Bachelor's degree of Information Technology: - Victoria University, Sydney, NSW	July 2020 - Sep 2022
Diploma & Advance Diploma of Information Technology: - Kingston Institute Australia	May 2017 - June 2020
